

# Solution for 100% Tamper Proof Certificates

## Recommended for Institutions

- Who Bother about Duplication of Certificates
- Who Bother about Tampering of Certificates
- Who needs a solution for more secured and easily verifiable documents

Then here is **SPD** ➔ **Secured Pre-Verified Documents** solution from **TRS** for you.

## PROCESS FLOW

1 Prepare Verification Mark for each student from the result file

2 Print Certificate / Marks Statement as usual.

3 *Print Verification Mark attached to the record on the Certificate / Marks Statement.  
Send printed certificate / marks statement to the students*

4 Convert each document into **secured PDF file**

5 Upload Secured PDF to the Server and give access to students for downloading individually.

## ADVANTAGES

- Since the Mark is created from the results file and is printed on the Certificate / Marks statement it becomes Pre-Verified data.
- Whoever wants to verify the document has to read that Pre-Verified mark and verify the data with the printed data on the document.
- Pre-Verified mark is printed in encrypted format hence the document is Tamper Proof.
- By reading the mark the data is viewed through mobile application. Hence verification of the certificate / mark statement becomes very simple and fast.
- **Within a Minute Create SPD documents. Within a Minute Verify the same**
- **SPD – Document Security and Verification Redefined.**
